

# HermitCam™ Flex Jr.

Concealable IP Video System

## Tough enough for vehicles.

## Versatile enough for anything else.

*At Crime Point, Inc. we realize police agencies need video surveillance systems that they can watch and control via the Internet, and that lend themselves to a wide range of covert enclosures and temperature ranges for unmanned deployment. We're proud to offer the Hermit Cam™ series of miniature front-tilt IP zoom cameras with our CP-Flex™ network video recording computer.*

### Options include:

- Two IP camera models: Front tilt with front pivot (2-3" portal) or continuous 360° (2-3" imaging band)
  - 35x zoom, DSS for lower light
  - CP Flex™ network DVR with 500 GB hard drive. Recording software options.
  - 110v and 12v power connections. Optional batteries
  - 32-140°F operating temperature
  - Pinhole camera kit for close-up operations
  - Wi-Fi for local remote
  - Mini PC for monitoring and control
- Requires data service or network connection

Single unit for easy transport.  
Removable camera for easy deployment.

Agency-created and custom concealment concepts.
